

Compaq Presario v2000 Hard drive Replacement

How to remove and replace the hard drive

Written By: Andrew

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
-

Step 1 — Hard drive

- Remove the battery before starting

Step 2

- Loosen the two screw for the hard drive cover
- ⓘ The screws will stay attached the the cover
- Lift the cover from the left side and remove

Step 3

- Lift the black pull tab on the hard drive
- Lift the drive straight up out of the laptop

Step 4

- Remove the four screws on the sides of the drive (two on each side)
- Remove the hard drive from the caddy

Step 5

- Pull the IDE connector straight off the drive

⚠ Be sure to pull the connector off straight so as not to bend the hard drive IDE pins

To reassemble your device, follow these instructions in reverse order.
